FOODS THAT ARE HARMFUL TO OUR FURRY FRIENDS

PITTED FRUITS

Mainly persimmons, peaches, and plums.

Seeds from persimmons can cause problems in a dog's small intestine.

Peach and plum pits have cyanide, which is poisonous to people and dogs.

DAIRY

Any milk based products are harmful to canines.

Milk and milk-based products can cause diarrhea and other digestive problems for your pup.

Can also trigger food allergies, which can cause them to itch.

CAFFEINE

Caffeine can be fatal.

Keep your dog away from: coffee, tea, cocoa, chocolate, colas, and energy drinks.

Caffeine is also in some cold medicines and pain killers.
