- March's Premium Dog Food was founded by Daphne March in 2003.
- Mrs. March is from Monroeville, Pennsylvania. She is a mother of three children and owner of two dogs.
- Mrs. March has been a dog lover for her whole life. Her idea behind creating March's Premium Dog Food was to create and bring a new, cleaner formula to the dog food market, while keeping a price range that all dog owners can afford.
- The first March's Dog Premium Food factory and packaging facility opened in 2005.
- March's Premium Dog Food is organic. All ingredients that go into our formula are naturally and ethically farmed by suppliers that we know, trust and have worked with since the very beginning.
- Zero waste guidelines are consistently followed at all March's Premium Dog Food factory locations – that includes water conservancy, renewable energy sources and recycling.
- All March's Premium Dog Food product packaging is made from 100% recycled materials.
- March's Premium Dog Food has multiple partnerships with animal related charities and foundations: Hope for Paws, House with a Heart, Best Friends Animal Society, Guide Dogs of America, FACE Foundation for Animals.
